coaching and innovation mentoring

## SUCCESS STORY | EXECUTIVE LEADERSHIP MENTORING | GLOBAL C-LEVEL EXECUTIVE

The goal of the Project was to refine, enhance, and integrate the relational, social, and communication skills of a C-level Executive Mentee from a globally leading company in the B2B services sector.

The essence of the Project lay in managing a personalized Individual Executive Leadership Mentoring journey, focused on deepening the Coachee's self-awareness, reinforcing their intrinsic motivation, and developing and maximizing their professional and human potential.

A further distinctive element of the Mentee's growth process was the innovation of internal and external interfacing patterns and the holistic vision of the organizational system.

The entire process was based on coordinated collaboration between the Mentee, the Mentor, and the Sponsor's Human Resources Management, achieving excellent final results.

This Executive Leadership Mentoring program was based on the systemic approach LeadershipCoaching@Livella®.
